RECOIL TRACTION BARS

Notes

1. Frame bracket modification and differential mount modification required
2. Torsion bar tool required to unload torsion bars
3. Minor welding required
4. Gas models will require coil-over preload adjustment — see instructions. 4.5" system will net more lift on gas models. Use #129600 spanner wrench.
5. Gas models require exhaust modification
6. Dually applications will require custom u-bolts
