51DK1332	1	022509	Rear Box Kit		
	2	55759	Rear Shock		

### Notes

1. These trucks vary from 1"-3" tail high from the factory. Be sure to measure your vehicle before ordering. The 022209, 022309, and 022509 can all be substituted to achieve the desired stance.
2. Rack & Pinion steering system is extremely sensitive to any out of round or out of balance tire/wheel combination. The larger the tire the less the backspacing, the more sensitive the system, causing minor steering wheel shimmy.
3. Not recommended for AWD models.
4. Stock 17" wheels can not be re-installed. Stock 20" can be reinstalled with factory tire.

Vehicle shown with 37x13.50 MTZ tires, 18x9 Eagle series 197 wheels, and Bushwacker pocket flares

# 2006-08 1500 1/2 Ton Pickup 4WD IFS SYSTEM

## 6" KIT FEATURES

- 1/4" Laser cut crossmembers with high clearance design
- Differential skid plate included for offroad protection
- 3 point differential drop for proper drive line angles
- Replacement steering knuckles included for easy installation
- Front Kevlar lined stainless steel brake lines included
- Upper strut spacer included to maintain factory ride

### Notes

1. Will not fit Mega-Cab models.
2. Rack & Pinion steering system is extremely sensitive to any out of round or out of balance tire/wheel combination. The larger the tire the less the backspacing, the more sensitive the system, causing minor steering wheel shimmy.
3. Not recommended for AWD models.
4. TRX models require removal of OE lower skid plate.
5. Stock 17" wheels can not be re-installed. Stock 20" wheels can be reinstalled with stock tires.

2" Front Strut Spacer Kit

# 2002-05 1500 1/2 Ton Pickup 4WD IFS SYSTEM

**DODGE**

## 6" Kit Features

- One piece front and rear crossmembers increase frame rigidity while reducing installation time
- Steering knuckle included to reduce installation time
- High clearance crossmembers, differential skid plate, and compression struts included for off road use
- Front and rear bump stop extensions included
- Allows use of stock wheels with stock tires
- No Torsion Bar Drop System

**NTB**  
**DROP**  
No Torsion Bar Drop

2	55711	Front Shock				
2	55769	Rear Shock				

### Notes:

1. Rack & Pinion steering system is extremely sensitive to any out of round or out of balance tire/wheel combination. The larger the tire and the less the backspring, the more sensitive the system, causing minor steering wheel shimmy.
2. Stock 17" wheels can not be reinstalled. Stock 20" wheels w/stock tires can be used.
3. Special tool required to load/unload torsion bars and puller required to remove lower control arm bushings.
4. Depending on cab configuration, these vehicles vary from 1" to over 4" tail high from the factory. Be sure to measure the vehicle before deciding how much to lift the rear.
5. May require exhaust modification to clear front drive shaft, typically on std cab models.
6. AWD models may require a CV style front drive shaft.

**Notes**

1. Measure rear axle tube before ordering. Some 4" axle models with dual overloads will require 040068.
2. Rear lift options will not fit dually applications.
3. If driveline vibration occurs, order either transfer case drop or indexing kit available in optional accessories. NOTE: 122606 Transmission drop kit will only replace the OE bracket #52121938AA
4. 102009 Rear brake lines will not fit 2012 models.
5. Kit will also work on gas models. But will require coil springs (032601) and spacer (012201) in place of coil springs (032801).

# 2009-12 3/4 Ton Pickup 4WD—Gas PRO-RIDE SYSTEM

## 2" & 3" Kit Features:

- Cast aluminum upper coil mounts that bolt directly to the upper shock tower for a secure mount
- 2" upper coil mounts to level the vehicle
- BDS 5500 series shocks with CAV technology for increased off road performance
- 3" box kit includes 3" upper coil mounts, track bar relocation bracket, pitman arm, and extended urethane bump stops
- Both kits maintain factory coils and factory ride

3" Kit - 281H

## 6" Standard Kit Features

- 6" Pro-Ride coil springs
- Front box kit includes: heavy-duty upper and lower greasable control arms, upper control arm relocation brackets, anti-sway bar relocation brackets, extended length bump stops, track bar relocation bracket and pitman arm for steering correction

6" Standard Kit - 601H

### Notes

1. Measure rear axle tube before ordering. Some 4" axle models with dual overloads will require 040068.
2. Rear lift options will not fit dually applications.
3. If driveline vibration occurs, order either transfer case drop or indexing kit available in optional accessories. NOTE: 122606 Transmission drop kit will only replace the OE bracket #52121938AA
4. Not recommended for Power Wagon applications.
5. Power Wagon applications require sway bar link kit #122401. The Power Wagon has a 2" taller ride height, so net lift gain will be 4".
6. 102009 rear brake lines will not fit 2012 models.

# 2008 3/4 Ton Pickup 4WD—Diesel PRO-RIDE SYSTEM

## 6" & 8" Long Arm Kit Features:

- Pro-Ride coil springs
- Extended length upper and lower control arms to reduce caster change through wheel travel
- Pitman arm for steering correction
- Extended bump stops
- Track bar relocation
- Upper link relocation brackets

### Notes

1. Measure rear axle tube before ordering. Some models with dual overloads will require 040068.
2. Rear lift options will not fit dually applications.
3. Not recommended for Power Wagon applications.
4. Power Wagon applications require sway bar link kit #122401. The Power Wagon has a 2" taller ride height, so net lift gain will be 4".
5. If driveline vibration occurs, order transfer case index kit #122801 or 122802.

### Notes

1. This truck is available with three different rear axle tube diameters. Measure rear axle tube before ordering. Some 3-7/8" axle models with dual overloads will require U-Bolt #040066, 4-1/8" may require 040068.
2. Will not fit dually applications.
3. Although unusual, if driveline vibration occurs, order transfer case drop kit available in options or t-case index kit. #122801 is included in 8" kits, substitute #122802 for manual transmission.
4. Optional transfer case drop kits fit automatic transmission models only.

# 2003-07 3/4 & 1 Ton Pickup 4WD—Gas PRO-RIDE SYSTEM

## 2" & 3" Kit Features

- Cast aluminum upper coil mounts that bolt directly to the upper shock tower for a secure mount
- 2" upper coil mounts to level the vehicle
- BDS 5500 series shocks with CAV technology for increased off road performance
- 3" box kit includes 3" upper coil mounts, track bar relocation bracket, pitman arm, and extended urethane bump stops
- Both kits maintain factory coils and factory ride

## 6" & 8" Long Arm Kit Features:

- Pro-Ride coil springs
- Extended length upper and lower control arms to reduce caster change through wheel travel
- Pitman arm for steering correction
- Extended bump stops
- Track bar relocation
- Upper link relocation brackets

### Notes

- For models built after February 9, 1994 due to track bar stud size.
- Dual stabilizer may be used in place of single steering stabilizer.  
Dual stabilizer only fits 3-1/4" diameter axle tubes.
- May require exhaust modification.
- #002209 and 002458 rear springs come with OE style bushings installed.

# 1969-93 1/2 & 3/4 Ton Pickup 4WD GLIDE-RIDE SYSTEM

- 5" Glide-Ride leaf springs
- Front box kit includes: new urethane bushings, sleeves, zinc plated u-bolts with nuts and washers, and brake line relocation brackets
- Glide-Ride leaf springs include tapered ends with anti-friction pads on both front and rear springs.
- Steering block restores steering linkage angles.

5" Glide-Ride Suspension System With Rear Springs

### Notes

1. On models with Saginaw or Corporate type front driveshaft, CV cluster may require dressing to prevent binding.
2. Anti-Sway bar links will have to be sectioned and lengthened.
3. On models equipped with 4WD dash light, wiring will need to be lengthened.
4. Not for heavy duty 3/4 ton.

5. I.D. of bushing is smaller than mounting pin and will require lubrication and extra effort for installation.
6. #082501 steering block only fits Dana 44 with 3 bolt knuckle.

Vehicle shown with 5" System,  
35"x12.50 Trxus tires and  
15x8 US wheels
