

BDS SUSPENSION

2011-2016 CHEVROLET/
GMC 2500/3500HD
2WD/4WD - DIESEL

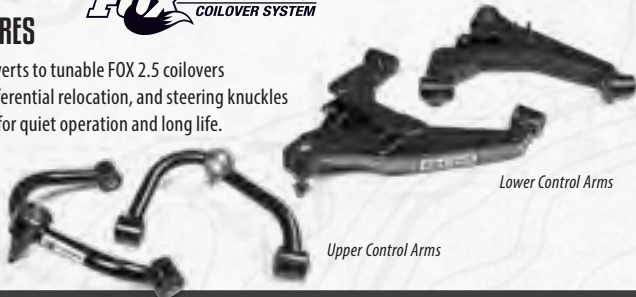

Vehicle Specs: BDS 6.5" C/O System, 38x13.50 Nitto Trails, 20x10 Fuel Vapor

6.5" COILOVER CONVERSION FEATURES

- Eliminates rough riding torsion bars and converts to tunable FOX 2.5 coilovers
- High clearance crossmembers, skid plate, differential relocation, and steering knuckles
- Rubber bushings and ball joints preinstalled for quiet operation and long life.
- 30% increase to suspension travel
- TIG welded chromoly upper control arms
- Fully boxed, internally gusseted lower arms
- Allows fitment for up to 37" tires

Lower Control Arms

Upper Control Arms

FOX 2.5 DSC COILOVERS

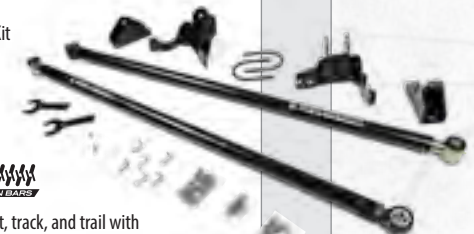

Dual Speed Compression (DSC) technology improves the FOX coilover performance with easy adjustability to match your terrain. Same benefits of FOX 2.5 coilovers now with DSC for 12-points of high speed compression adjustment and 10-points of low speed adjustment to dial in the ride.

#121251 Skid Plate Kit

Improve your traction on the street, track, and trail with BDS RECOIL Traction Bars. This revolutionary floating design uses tunable dual-stage compression springs for improved traction without binding up like traditional traction bars. RECOIL Traction Bars use heavy-wall tubing with a forged flex end and easy bolt-on mounts.

#123409-121408 19CK918

#121612 Carrier Bearing Drop

Notes

1. Minor metal trimming may be required with 35x12.50R20 on 20x9 w/5-5.5" BS
2. Coilover designed for diesel trucks, can be used on gas engine trucks by adjusted preload to get ride height within 2-3" of lift using spanner wrench #129600
3. Requires minor welding
4. Coil-over designed for Diesel trucks. Use on gas models requires reducing coil spring preload to set at 6.5" of lift
5. Stock 17" & 18" wheels cannot be reinstalled. Stock 20" can be installed with up to a 35x12.50 tire
6. Torsion bar tool required to unload torsion bars
7. Models with 2-pc rear driveshaft may require #121612
8. WILL NOT fit dually applications
